PLACES WE VISIT

This Huesca Provincial tour perfectly highlights the stunning scenery of the Spanish Pyrenees from the farmed flatlands to the craggy mountains and its crystal clear rivers to its ice cold altitude lakes, including some winding roads, amazing architecture and impressive reservoirs.

We spend time in capital and namesake of the province; Huesca as well as the towns of Jaca and Graus. The small city of Huesca has a flat high street and medieval alleys leading to the Gothic Cathedral, a splendid art nouveau Casino and the leafy green Miguel Servet Park. The centre of Jaca revolves around the impressive Citadel of San Pedro, a 16th-century pentagonal star fortress

housing a drawbridge, a surrounding moat populated by deer, and the Museum of Military Miniatures with over 35,000 lead figures recreating historical battles. The charming flat historic centre features narrow medieval streets anchored by Spain's oldest Romanesque Cathedral of San Pedro. At the heart of Graus is its magnificent, irregular Plaza Mayor, renowned for its colourful painted facades, arched porticoes, and grand Renaissance mansions that form one of Aragon's most stunning historic squares. Running alongside the town is the crystal clear waters of the River Ésera.

Our journey also takes us through a selection of delightful villages, each with its own character and distinct story.

We pause for a lunch in the village which is world famous for its towering conglomerate rock formations whose sheer, vertical cliffs include the iconic needle-like slender spire known as ‘The Finger’. These soaring red walls serve as a paradise for rock climbers and host one of Europe's largest breeding colonies of griffon vultures.

We step back in time to the 1920's when a majestic international railway station, a grand architectural jewel known as the ‘Titanic of the Pyrenees’ provided a vital high-altitude tunnel linking Spain to France until the 1970's.

We spend the day immersed in the mountain scenery of the Tena Valley. We board the charming tourist train for a scenic 50-minute climb into the mountains, stopping at a breathtaking lake before returning. For the brave and fit, an optional lunch-break excursion offers the chance to tackle a thrilling, 800-meter suspended walkway. Bolted directly into the vertical cliff face, this path suspends you high above rushing torrents, deep pools, and dramatic waterfalls for an extra €4.

Another destination mountain village offers a gentle flat walk beside the river and through the compact centre complete with traditional architecture features; heavy stone masonry, slate roofs, ornate coat of arms, and iconic conical chimneys fitted with espantabrujas (witch-scaring stones).

We explore one of Spain's most picturesque medieval villages. Perched on a flat strategic hilltop overlooking the confluence of two rivers with its imposing castle and sweeping panoramic views of the surrounding Pyrenean peaks, it features cobbled streets lined with 15th century stone houses.

Our journey takes us along a stunning road squeezed between imposing rock face and mountain river to the Hidden Valley and two of its villages which offer unique perspectives of valley living.

To top it all off we visit the smallest village in Spain with its own cathedral!
